THE BRIEF

What Edwin *needs*

Edwin is a chef who wants to sell his food online to two kinds of buyers. Both order in volume and plan ahead, so the website is built around bulk ordering instead of single plates.

BUYER GROUP

Catering businesses

- Order by the tray or kilo, not by the plate
- Minimum order quantities and better rates on volume
- Book ahead for wedding, party and event dates
- Reorder regular dishes in a few clicks

BUYER GROUP

Corporate clients

- Office lunches, meal boxes and event menus
- Delivery on a chosen date and time slot
- GST invoice with company name and GSTIN
- Custom quotes for large or recurring orders

Both groups need: Clear veg / non-veg marking · Menus with real photos · Secure online payment · Quick WhatsApp contact

SCOPE OF WORK

What's *included* in the fee

Everything below is covered by the quoted fee of ₹83,000. Third-party charges are listed separately under Investment.

Design & storefront

THE LOOK AND THE PAGES

Brand-led design
Shopify theme styled to Edwin's brand: logo, colours, fonts and large food photography.

Mobile-first build
Designed and tested for phones, where most buyers browse and order.

Core pages
Home, About the Chef, Menu, Catering, Corporate Orders, FAQs and Contact.

Policy pages
Terms, privacy, refund & cancellation and delivery policies, from content the client approves.

Menu & catalogue

THE DISHES

Up to 50 dishes listed
Uploaded with photos, descriptions, prices and serving details.

Veg / non-veg symbols
Shown on every dish, with allergen, spice-level and Jain-option notes.

Bulk portion options
Variants such as half tray, full tray, per kg, or serves 10 / 25 / 50.

Collections
Dishes grouped by course, cuisine and buyer type, so buyers find them quickly.

Bulk ordering

BUILT FOR CATERERS & CORPORATES

Minimum order quantities
Set per dish, so small orders don't slip through.

Delivery date & time slot
Buyers pick a slot, with a lead time such as 48 hours' notice.

Customer accounts
Order history and quick reorder for repeat buyers.

Volume pricing
Per-unit price drops as the order size goes up.

Request-a-quote form
For corporate events and recurring orders, sent straight to Edwin.

Dedicated landing pages
One page for catering partners and one for corporate clients.

Payments & invoicing

CHECKOUT TO INVOICE

Razorpay at checkout
UPI, cards, net banking and wallets, if the client opts for online payments.

GST-ready invoices
Company name and GSTIN captured with the order; invoices show the client's GSTIN and FSSAI licence number.

Offline payment options
Bank transfer or cash on delivery for approved corporate accounts.

Order notifications
Confirmation emails to buyers and new-order alerts to the kitchen.

Launch & handover

GOING LIVE

Domain & go-live
Store connected to the client's domain, with test orders run before launch.

WhatsApp chat button
One tap from any page to Edwin's WhatsApp number.

30 days of support
Bug fixes and small text or image changes for 30 days after launch.

Search & analytics basics
Page titles and descriptions, Google Analytics and Search Console.

Training session
One live session of about an hour, plus a short guide to adding dishes, changing prices and handling orders.

Two design revisions
Two rounds of changes at the design stage before the build begins.

TERMS & CONDITIONS

The *fine print*

01 **Validity.** This quotation is valid for 15 days from the date above. After that, the fee and timeline may be revised.

02 **Scope.** The fee covers only the work listed under "What's included". Extra pages, features, integrations or more than 50 dishes will be quoted separately before any work starts.

03 **Third-party charges.** Shopify subscription, Shopify transaction fees, apps, Razorpay charges, domain and any premium theme are paid by the client directly to the provider at their prevailing rates. They are not part of the ₹83,000 fee, and price changes by these providers are outside our control.

04 **Account ownership.** The Shopify store, domain and Razorpay account are opened in the client's name and belong to the client. Razorpay activation needs the client's KYC and bank details, and approval is at Razorpay's discretion.

05 **Client content.** The client provides the logo, dish names, photographs, descriptions, prices, FSSAI licence number, GSTIN (if registered) and policy details. Late content moves the launch date by the same number of days.

06 **Revisions.** Two rounds of design revisions are included. Changes requested after design approval, or beyond two rounds, are charged separately.

07 **Payment.** Work starts on receipt of the advance. Milestone payments are due within 7 days of each milestone. The website goes live only after the final payment is received.

08 **Taxes.** The fee is exclusive of GST. Where applicable, GST will be charged at the prevailing rate (SAC 998314, IT design and development services).

09 **Cancellation.** The advance is non-refundable once work has started. Payments for completed milestones are non-refundable if the project is cancelled.

10 **Ownership of work.** On full payment, the website design, setup and content belong to the client. We may show the website in our portfolio unless the client asks otherwise in writing.

11 **Support.** 30 days of free support after launch covers bug fixes and small text or image changes. New features, redesigns and maintenance after this period are charged separately.

12 **Food business compliance.** The client is responsible for food quality and safety, FSSAI licensing, pricing, delivery, GST on food sales and all other legal requirements of the food business. Our responsibility is limited to the website.

13 **Platform availability.** Uptime, features and policies of Shopify, Razorpay and installed apps are controlled by those companies. We will help resolve issues but are not liable for outages or changes on their side.

14 **Inactive projects.** If the client does not respond for more than 30 days, the project may be put on hold, and restarting it may need a revised schedule.
